Thailand's Annual International Training Course
(AITC)
Course Information

Dengue and Zika Prevention Campaign

15-30 March 2020

Closing date for application: 15 January 2020

TICA: Thailand International Cooperation Agency is a national focal point for Thailand's international development cooperation. TICA was established in 2004 to realize Thailand's aspiration to be a contributor of development cooperation. Believing that global challenges are best addressed by international cooperation and global partnership, today we continue to strengthen our contribution to achieve global development agenda through various capacity-building and human resources development programs. In response to the recent changes in the global landscape of development cooperation, especially through the concept of South-South and Triangular Cooperation, TICA continues to realign our focuses in order to deliver Thailand's commitment to be a relevant partner in global agendas including the 2030 Agenda for Sustainable Development.

AITC : Annual International Training Course

was initiated in 1991 as a framework in providing short-term training for developing partners. Today, the AITC remains one of TICA's flagship programs. It offers not only a training experience, but also a platform in exchanging ideas and establishing professional network among participants from across the developing world. Aiming at sharing Thailand's best practices and experience to the world, the AITC training courses focus on development topics of our expertise currently categorized under five themes namely; "Sufficiency Economy Philosophy" or SEP, Food security, Public Health, Climate Change, and other topics related to Sustainable Development Goals (SDGs).

School of Science, Walailak University

Walailak University is a residential university equipped with modern educational facilities, services and accommodation for students and staff, located against a beautiful backdrop of mountain scenery in Nakhon Si Thammarat Province, Thailand. The University has a total area of 3,600 acres, making it the largest campus of any university in Thailand. Established in 1999, the School of Science at Walailak University is one of the leading institutes in science in southern Thailand. The faculty focuses on producing a number of qualified researchers to serve industrial needs. It currently consists of five departments namely, Biology, Physics, Chemistry, Mathematics and Statistics, and Marine Science Departments. This training course will be conducted by School of Science.

AITC Theme : Public Health

This training course falls under the AITC theme "Public Health". We believe that health is a very important component for economic and social development, national security, regional and global stability. In the post 2015 context, health has been increasingly recognized as a key contributor in development as good health is one of the fundamental building blocks of society and sustainable development. For improved quality to inclusive healthcare system, Thailand has been sharing our experience and lesson learned with developing partners on the road to achieve health-related Sustainable Development Goals (SDGs).

Course Objectives

This training course aims at strengthen the dengue and Zika prevention training programs to be responsive to the climate change challenges and sustainable development.

At the end of this course, participants are expected to;

- To build critical surveillances who will promote/practice of dengue and Zika prevention.
